

CO2 POST-TREATMENT SUPPLIES

VANICREAM GENTLE CLEANSER

Wash with a gentle cleanser as directed post treatment with fingertips and lukewarm water.

VANICREAM CREAM

Begin using after several days or in addition to Cicaplast as needed throughout the day for the first 2 weeks.

LA ROCHE-POSAY CICAPLAST BAUME

Use every 2 hours while awake during the first 48 hours and several times daily thereafter.

LA ROCHE-POSAY THERMAL SPRING WATER SPRAY

Use frequently to combat the sensation of itching and dryness.

VINEGAR WATER MIXTURE

Use distilled white vinegar to make soaks for treatment sites. 3 tablespoons vinegar in 1 quart of water. Keep covered and refrigerated.

AQUAPHOR HEALING OINTMENT

Use on delicate sites like eyelids or anywhere that is particularly dry.

HYDROXYZINE RX

Take every 4-6 hours, especially before bed, for itching to avoid scratching. Will cause drowsiness, avoid driving.

VALTRESX RX

To prevent cold sores in the treated skin, you will start 500mg twice a day, starting the morning BEFORE your treatment, for a week

IF INDICATED:

ANTIBIOTIC RX

If you have a history of staph infections, an antibiotic will be started to prevent this. Notify your provider of any allergies.
